ABOUT BRAINPOP

BrainPOP (www.brainpop.com) creates cross-curricular digital content that engages students through animated movies, learning games, interactive quizzes, concept mapping, and an array of related activities. Used in classrooms, at home, and on mobile devices for individual, team, and whole-class learning, our offerings include **BrainPOP Jr.** (K-3), the mobile-ready **BrainPOP**, **BrainPOP Español**, **BrainPOP Français**, and, for English language learners, **BrainPOP ESL**. We are also home to **GameUp**, a vetted collection of educational games and resources that facilitate game-based learning, and **My BrainPOP**, a suite of features that help teachers keep track of learning and provide their students with feedback. It includes the Quiz Mixer, for custom assessment; Sortify and Time Zone X, for playful assessment; SnapThought, a photo reflection tool; and Make-a-Map, for concept mapping. **BrainPOP Educators**, our hub for professional development, offers a rich array of training opportunities, implementation tools, and lesson plans that help meet the rigor of the Common Core and other academic standards. Localized to major world languages, our sites host millions of monthly visitors, and our mobile apps regularly rank among the highest in the major app stores' education categories.

EXPLORE BRAINPOP!

MY BRAINPOP

My BrainPOP simplifies your ability to keep track of learning. Use it to customize assessments; view quiz scores and class-wide analysis; review concept maps; provide feedback on learning artifacts from games and activities; and much more. We're always adding new features, so read on and scan the QR code at left to stay current.

MAKE-A-MAP

Our Ideaphora®-powered concept mapping tool lets students connect and organize clips from our movies, keywords, and other elements as they construct visual representations of their knowledge.

QUIZ MIXER

Tailor assessments to meet your needs. Build BrainPOP-style quizzes with existing questions, or come up with your own — including open-ended.

GAMEUP

Our online games portal features dozens of cross-curricular titles and recently added playful assessment options, paired with tips and resources for bringing game-based learning into your classroom.

CERTIFICATION & PROFESSIONAL DEVELOPMENT

Ask about getting started with our Certified BrainPOP Educator program, for teachers who demonstrate exemplary commitment to and creativity using BrainPOP resources. We invite CBEs to beta test, weigh in, and consult with our team on pipeline projects. There's also our new PD offerings, including workshops dedicated to differentiation, integration, assessment, and STEM/NGSS.

BRAINPOP ESL & BRAINPOP JR.

My BrainPOP — including Make-a-Map! — are now available for our comprehensive ELL program and K-3 resource.
